HOW IT WORKS:

You:

1 Clean out your closet of any kind of shoes, used or new.

2 Tie or rubber band pairs together.

3 Drop them in the shoe collection bag at a shoe drive or drop-off location.

We:

1 Pick up your shoes from shoe drives and drop locations.

2 Give them a second life, selling the shoes to exporters for resale in developing countries. These affordable shoes protect their new owners from deadly parasites and infections.

3 Use the money to purchase well-drilling rigs, water purification systems, and other supplies to bring clean, fresh water to those in need.
